

ΚΑΤΑΛΟΓΟΣ 2016 Με τα κουτιά της DYNAMEC

Η DYNAMEC ξεκίνησε τη κατασκευή διαφανών πλαστικών κουτιών στις αρχές της δεκαετίας του 1990 εισάγοντας τότε μια νέα εποχή στο τομέα της συσκευασίας στη Κύπρο. Μέσα σ' όλα αυτά τα χρόνια η DYNAMEC έχει συγκεντρώσει μια τεράστια γκάμα πέραν των 2,000 κουτιών διαφόρων τύπων, σχεδίων και μεγεθών κατασκευασμένων από πλαστικό ή χαρτί ή σε συνδυασμό των δύο, ενώ εξακολουθεί να προσφέρει τη δυνατότητα κατασκευής κουτιών με βάση τις εκριμέ-νες ανάγκες του πελάτη και πάντοτε χωρίς καθ' όλο ποσοτικούς περιορισμούς.

Υλικά κατασκευής

Η DYNAMEC προσφέρει 3 επιλογές

- (α) Πλαστικό – διαφανές με δυνατότητα χρήσης άλλων χρωμάτων
- (β) Χαρτί – σε μια μεγάλη ποικιλία χρωμάτων και πάχους
- (γ) Συνδυασμός πλαστικού με χαρτί

Τύποι Κουτιών

Η DYNAMEC κατασκευάζει 5 τύπους κουτιών ανάλογα με τον τρόπο κατασκευής τους και τη χρήση τους.

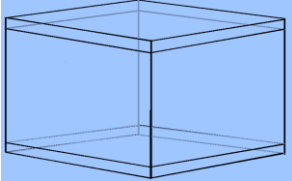

- (1) Τύπος «**COMPLI**» – αποτελείται από δύο μέρη με 4 κολλήματα το κάθε ένα (μία βάση και ένα καπάκι που φοριέται απάνω στη βάση) και παραδίδεται στημένο διότι δεν διπλώνεται.
- (2) Τύπος «**DYNA**» - παραδίδεται διπλωμένο (είναι κολλημένο στο πλάι), στήνεται εύκολα διπλώνοντας το ανάποδα και γεμίζεται από τις πλαϊνές πλευρές οι οποίες κλείνουν με ενσωματωμένο κούμπωμα.
- (3) Τύπος «**ENV**» - παραδίδεται flat (δεν έχει καθόλου κολλήματα) και χρειάζεται να στηθεί διπλώνοντας το στις τσακίσεις και κλείνοντας το με τα ενσωματωμένα κούμπωματα στις 3 πλευρές.
- (4) Τύπος «**HANG**» - είναι ακριβώς όπως το «**DYNA**» αλλά στη μία άκρη σχηματίζεται ένα σημείο από το οποίο το κουτί μπορεί να κρεμάζεται.
- (5) Τύπος «**CYLINDER**» - πρόκειται για κυλίνδρους με ένα κόλλημα στο κορμό οι οποίοι κλείνουν με επίπεδα στρογγυλά καπάκια στα άκρα. Παραδίδονται στημένοι με το ένα καπάκι μόνιμα κολλημένο.

Κατάλογος Κουτιών

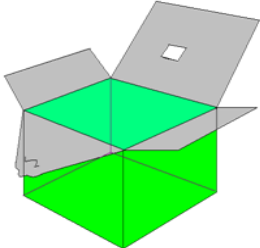

Το κάθε κουτί έχει τον δικό του Κωδικό Αριθμό, (ITEM CODE), οι πρώτοι αριθμοί υποδηλούν τη διάσταση του κουτιού και είναι όλα καταχωρισμένα στους καταλόγους που ακολουθούν ανά τύπο κουτιού και ανά μέγεθος αρχίζοντας με το μήκος, μετά το πλάτος και τέλος το ύψος.
